Attachment: Notice of Proposed Regulatory Action

NOTICE OF PROPOSED REGULATORY ACTION
Amend Commission Regulations 1052, 1055, 1059, and 1070

Notice is hereby given that the Commission on Peace Officer Standards and Training (POST) proposes to amend regulations in Division 2 of Title 11 of the California Code of Regulations as described below in the Informative Digest. A public hearing is not scheduled. Pursuant to Government Code Section 11346.8, any interested person, or his/her duly authorized representative, may request a public hearing. POST must receive the written request no later than 15 days prior to the close of the public comment period.

Public Comments Due by March 7, 2022.

Notice is also given that any interested person, or authorized representative, may submit written comments relevant to the proposed regulatory action by fax at (916) 227-4547, by email to [Jennifer Hardesty](mailto:Jennifer.Hardesty@post.ca.gov), or by letter to:

Authority and Reference

This proposal is made pursuant to the authority vested by Penal Code (PC) Section 13503 (authority of POST) and PC Section 13506 (POST authority to adopt regulations). This proposal is intended to interpret, implement, and make specific PC Section 13503(e), which authorizes POST to develop and implement programs to increase the effectiveness of law enforcement, including programs involving training and education courses.

Informative Digest/Policy Statement Overview

Penal Code § 13510 requires that POST develop guidelines and a course of instruction and training for law enforcement officers who are employed as peace officers, or who are not yet employed as a peace officer but are enrolled in a training academy for law enforcement officers. POST is responsible for the certification of these courses and implementing instructor training requirements for the instructors who teach in these courses. During a review of existing regulations, it was discovered there was conflicting language in multiple Commission Regulation sections and missing language in others.

The implementation of these changes will correct these conflicts and ensure all requirements for course certification are outlined for presenters.

Anticipated Benefits of the Proposed Amendments:

The benefits anticipated by the proposed amendments to the regulations will be clarification of instructor and certification requirements for those presenters who certify and present basic courses, which will increase the efficiency of the state of California in delivering services to stakeholders. Thus, the law enforcement standards are maintained and effective in preserving peace, protection of public health, safety, and welfare of California. The proposed amendments will have no impact on worker safety or the state's environment.

Evaluation of Inconsistency/Incompatibility with Existing State Regulations:

POST has determined that these proposed amendments are not inconsistent or incompatible with existing regulations. After conducting a review for any regulations that would relate to or affect this area, POST has concluded that these are the only regulations that concern course certification and instructor training requirements.

Benefits Anticipated

The benefits of proposed amendments to the regulation will increase the efficiency of the state of California in delivering services to stakeholders. Thus, the law enforcement standards are maintained and effective in preserving peace, protection of public health, safety, and welfare of California. The proposed amendments will have no impact on worker safety or the State's environment.

Adoption of Proposed Regulations

Following the public comment period, the Commission may adopt the proposal substantially as set forth without further notice, or the Commission may modify the proposal if such modifications remain sufficiently related to the text as described in the Informative Digest. If the Commission makes changes to the language before the date of adoption, the text of any modified language, clearly indicated, will be made available at least 15 days before adoption to all persons whose comments were received by POST during the public comment period and to all persons who request notification from POST of the availability of such changes. A request for the modified text should be addressed to the agency official designated in this notice. The Commission will accept written comments on the modified text for 15 days after the date that the revised text is made available.

Estimate of Economic Impact

Fiscal impact on Public Agencies including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None

Non-Discretionary Costs/Savings to Local Agencies: None

Local Mandate: None

Costs to any Local Agency or School District for which Government Code Sections 17500 - 17630 requires reimbursement: None

Significant Statewide Adverse Economic Impact Directly Affecting California Businesses: POST has made an initial determination that the amended regulations will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states.

Small Business Determination: POST has found that the proposed language will not affect small business because the amended language addresses the following: 1) clarifies the certification documentation for presenters of basic courses and, 2) eliminates conflicting requirements between Commission Regulation sections, neither of which require additional staff or training on behalf of the presenter.

Additionally, the Commission's main function to select and maintain training standards for law enforcement has no effect financially on small businesses.

Cost Impacts on Representative Private Persons or Businesses: POST is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Effect on Housing Costs: POST has made an initial determination that the proposed regulation would have no effect on housing costs.

Results of Economic Impact Assessment per Gov. Code section 11346.3(b)

The adoption of the proposed amendments of regulations will neither create nor eliminate jobs in the state of California, nor result in the elimination of existing businesses or create or expand businesses in the state of California.

The benefits of the proposed amendments of regulations to the regulations will increase the efficiency of the state of California in delivering services to stakeholders. Thus, the law enforcement standards are maintained and effective in preserving peace, protection of public health, safety, and welfare in California. There would be no impact that would affect worker safety or the State's environment.

Consideration of Alternatives

To take this action, the Commission must determine that no reasonable alternative considered by the Commission, or otherwise identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, or would be as effective as and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law than the proposed action.
